WISE SOLUTION

of New Generation

RANIA AL DANAF

PRINCIPAL

One of the fundamental desires we humans have is the desire for significance. We want – we need – our lives to count for something.

As we all have experienced a worldwide crisis, last year was for sure not pretty easy on most of us. But we never forget the lessons we learned along the way, we needed to trust and be flexible most of the time because these are the times when our faith is tested, and I just wanted to tell you how I always found peace and trust in God, whom he never lost control, never stopped working and showing us signs in faith to lead us in his path despite all that is going on around us, and with ourselves.

In Jesus' name and your support and prayers, we have been able to help not only spiritually and morally but also financially a lot of people resident in Lebanon in these hard times. No matter what the amount available was, we helped by all means that are available for us.

Under God's blessings, we have been able to save a lot of people, in Jesus' name, to enlighten and fulfill their hearts with his endless love to us, his creation.

SUMMARY OF 2020

Scanning over the past year; over everything that has happened, I will try to inform you about it all by a brief summary.

The end of 2019 has opened a new crisis door for 2020, starting from protests across Lebanon, an insecure economy and security; and then, Coronavirus that hit the world, aside with the economy of Lebanon that hit crisis as well, it was and still too hard for the people here because most of them have been terminated from their jobs or switched to a half-pay salary and the living costs went crazy high.

And then came the bigger loss, on the 4th of August a massive explosion happened in port Beirut, many people lost their houses, family members and even some businesses had to shut down so more unemployed people, and more crisis. We had our doors open for them, we distributed our phone numbers and address for any inquiry.

Well, for sure it has been a difficult year for most of us, there are some people who are unable to afford a simple medicine or food sometimes, it used to get really hard on us in a situation where we are unable to provide some people more help, but somehow we kept managing to provide most of those in need, in Jesus's help and all the prayers along the path,

I always have faith in Jesus for he's our savior, he sustains us because only he is our refuge.

LIST OF ACTIVITIES (2020)

Here's a list of most of our activities in the past year till the present time:

- A food distribution network; every month we aim to provide families with some efficient amount of food supplies, most commonly used products
- Financial support; those who are trying so hard to accomplish less than their basic living terms but only enough for them to survive in this country, needs just a little pull out of their life's chaos, into the light of God, we tend to provide some work for them as much as we can help. Trust me this procedure did literally improve their lives, at least now they've got hope.
- Campaigns to spread love amongst people; enlighten their hearts, and seed God's love in them to protect their families, and strengthen their relationship with their children and others as well.

***Eventually, the financial and spiritual support decreases daily pressures.**

- Our education center; it contains three classes, but we are having some quarantine time due to Coronavirus and total lockdown now, we work on helping children (Syrian refugees & Lebanese) with special needs like learning disabilities, social and psychological problems, we work on making them feel accepted, and loved because we truly love our children and each one of them is special in our heart.
- Summer Activities; although this year was short on outdoor and indoor gatherings, we somehow could manage to do some with our children who now wait for our meetings together, some of them refused to go to a party camp and attended our daily activities, that was something bless full to see our children start choosing love over weapons.
- Training programs for teachers and members; enhancing their performance, and continuous knowledge about how to strengthen the children and improve their progress.
- Lunch serving for children twice a week; we only do it twice because, with all that is going on, we are in a shortage financially, but we are being able to afford it by trying to keep our budget low and keep this a fun time.

DREAMS & GOALS

I always keep my hopes high when it comes to the future, saying that "when there is a will there is a way" especially with our ministry I feel it's God providing and opening doors of light for us.

We dream to extend classes and raise support to be able to help a bigger amount of children, especially from the Druze sect because they don't have mercy towards others, they raise their children on political stereotyping and partisanship.

So our goal is to help those children and youth so they don't go to a political party or weapons, instead, we aim to seed love and affection in their hearts, teach, show them forgiveness and support.

And what is the better way to get to know Jesus?

In addition, to implementing this by some volunteers from :

1. Canada: Trudy- a leader in "YWAM" (training and development expert in communication means and social work)
2. China: Sanima - a missionary from "Church of God" (food preparation help and help at the education center)
3. United States of America: Pastor David - president of "Churches of God" in Lebanon (spiritual instructor)

FOR GOD LOVES A CHEERFUL GIVER

Thank you so much, for your support that is letting us continue, those five loaves and two fish in our hands, thanks to the Lord, were able to help as many homes as we could and give help to those in need.

Don't think if you are supporting us financially that you are not present in the ministry with us, definitely, you and your support are the base of this ministry that we are doing in the name of the Lord Jesus.

I also know that the remaining duration for the organization's support is six months, but I pray that God will provide and bless you financially more and you'd be able to continue supporting our ministry even more so that that we can continue what we've started and to be able to serve more and more.

I wish that you would raise us with prayers more against the spiritual war that is attacking us, morally, financially, and socially because we are facing a lot of challenges and resistance from the society around us.

I hope that our voice, prayers, and your prayers for us, to be able to reach more churches so they can stand by our side and support us because we need you and without you and your support to us, we will not be able to continue our ministry because the economical situation in Lebanon is so difficult and the churches are incapable of supporting us. It is so heartbreaking to hear the kids and see how much they love this place (the education center) and how happy they are to be with us, while there is a probability that we will not be able to finish a year with them.

Also, a lot of the parents are thanking us for the work that we are doing, in our area, political parties do camps every while of time, so they can teach the youth and children the war life, weapon using and some other military pieces of training

and the surprise was in what I personally heard from the parents that their children are refusing to go to those camps because they love to come to our activities more and what happened in the last summer that there was a political party camp and the date was the same of our scheduled activity program there, so all the children ditched the camp and came to our program activity, and that was so amazing it touched all of us spiritually. It's so touching when you see God's power affecting our kids that way.

YOU are responsible for this ministry with us, we pray that no day would come and we have to say to our kids Good-Bye. We pray that this work shall continue.

Hoping that maybe more than one church would recognize us because of you, and to deliver our thoughts about the importance of developing the society spiritually, morally, and materially. In the name of Jesus Crist.

Amen

PRAYER REQUESTS & ORGANIZATIONS' NEEDS

I would like to talk about our needs and support requests,
thankful for the ministry support.

- The organization's building rental cost, that you send yearly.
- Teachers' Salaries (Arabic, English, Mathematics)
- The operations manager & customer service salary (teachers' supervisor, legal transactions, administrative transactions, and daily organizational needs...)
- Electricity and water costs
- Transportation costs
- Spending on center's needs (stationary, maintenance, ...)
- Food distribution network costs

Finally, We would like to invite you to come to visit us and see the work on the ground, this will encourage and inspire you in order to continue supporting us, hopefully when the Coronavirus quarantine ends.

with all LOVE, RANIA AL DANAF
